IF AMERICANS KNEW

Catalog of Educational Materials

Tools for Informing Your Community and Bringing Change

Since the media rarely provide full, unbiased information on Israel-Palestine and related issues, it is important for individuals to work to educate their families, friends, and communities.

If Americans Knew has published all of these materials, which can be distributed as widely as possible in communities around the country. We recommend ordering or printing numerous copies and giving these out on campuses; to friends, neighbors, and colleagues; at farmers' markets, churches, mosques, synagogues, etc. It is up to all of us to inform our fellow Americans.

All of our materials can be read or viewed online and downloaded for free at IfAmericansKnew.org. We can also ship them for a low cost.

Media Report Cards

If Americans Knew has conducted a number of studies on the accuracy of mainstream news coverage of Israel-Palestine. The fact that the media have been criticized by partisans on both sides of the issue has made it difficult for the largely non-aligned American public to evaluate the quality of the reporting they are receiving on this issue. Our reports can be read online. Though we do not keep them in stock, we are also able to send out copies of the reports.
